## Purpose and applicability

These forms support routine farm quality, environmental and occupational safety controls. The farm manager and QHSE lead select forms using the actual activities, hazards, legal obligations and customer requirements. The set is not a universal list of legally required records or a certification claim.

**Farm / legal entity / site / country / farming activities:**

## Issue controls

1. Assign approved codes from the 7.5.3 QIFL Master Records Register; file numbers in this download are navigation only. Complete prepared, reviewed, approved and effective-date fields on each master.

2. Set the record owner, frequency, retention, access and distribution in the register. Enter farm-specific limits from approved procedures, labels, permits and specifications; never invent chemical rates, withholding periods or water-quality limits.

3. Print one copy per activity or event, with additional sheets linked by record reference. Use ink and legible corrections with initials and date; never erase evidence. File completed records securely and track action closure.

4. Stop affected work for uncontrolled serious danger or missing mandatory controls. Escalate incidents, product holds and environmental events promptly. A checklist is not a high-risk work permit.

5. Review applicability after changes to crops, livestock, processing, equipment or law. Specialist work may need additional approved permits, veterinary records, food-safety plans or monitoring logs.

**Emergency contact / farm manager / QHSE contact:**

## Standards basis and guidance

Supports the requested ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 framework. Verify current amendments and transition requirements in the controlled standards register before issue. The forms do not reproduce ISO standards.

Guidance: ILO Safety and health in agriculture (2011): https://www.ilo.org/resource/other/safety-and-health-agriculture ; FAO GHP/HACCP record keeping: https://www.fao.org/good-hygiene-practices-haccp-toolbox/haccp/step-12-documentation-and-record-keeping/
