Task risk assessment

Complete before new or changed work. Consult the workers carrying out the task.

Prepared by - name / signature / date **Reviewed by - name / signature / date** **Approved by - name / signature / date**

Farm / block / work area: **Date / time:** **Record reference:**

Task / equipment / people exposed, including contractors and nearby persons:

Assessor / worker representative / applicable SOP or permit references:

Use the farm approved risk method. Enter likelihood, severity and rating definitions below. Consider machinery, chemicals, biological agents, traffic, lifting, heat, water, electrical and environmental hazards.

Approved risk matrix reference / rating definitions / acceptance authority:

Task step / hazard / possible harm	Existing controls	Initial risk	Additional controls

Apply elimination, substitution and engineering controls before administrative controls and PPE. A numeric score alone does not authorize work.

Attachments / specialist assessments / permit requirements:

Task risk assessment

Control implementation and work authorization

Prepared by - name / signature / date **Reviewed by - name / signature / date** **Approved by - name / signature / date**

Farm / block / work area: **Date / time:** **Record reference:**

Control to implement	Owner / due	Verification evidence	Residual risk

Emergency arrangements / communication / rescue plan reference where relevant:

Worker briefing completed / participants or toolbox record reference:

Decision: Authorized / restricted / not authorized. Scope and restrictions:

Approver / signature / date and time: **Review date or trigger:**

Do not start with uncontrolled serious danger or missing mandatory controls. Reassess after changes, incidents or evidence that controls do not work. This assessment does not replace specialist permits or rescue planning.
